Company Overview

**Delivering Reliable Logistics.
Connecting Businesses
to Global Markets.**

VMG International Cargo LLC is a Dubai-based cargo, freight and logistics company established to provide reliable, responsive and commercially efficient logistics solutions for businesses operating across the UAE and international markets.

As a member of VM Group, VMG International Cargo combines customer-focused service, operational coordination and a growing network of logistics partners to manage cargo movements across air, sea and road transportation channels.

Our objective is simple:

To make cargo movement easier, more transparent and more dependable for our customers.

From a single urgent shipment to recurring international freight movements and integrated logistics requirements, VMG International Cargo works closely with customers to understand the nature of their cargo, delivery priorities, destination, documentation requirements and commercial objectives before developing the appropriate logistics solution.

We aim to support the complete shipment journey—from initial enquiry and freight planning through collection, documentation, transportation coordination, customs support, delivery and shipment closure.

Our Commitment.

Our Vision

To become a trusted and recognized logistics partner connecting the UAE with global markets through reliable, intelligent and customer-focused cargo solutions.

Our long-term ambition is to build VMG International Cargo into a strong logistics brand recognized for operational reliability, customer relationships, transparent communication and the ability to manage increasingly complex supply-chain requirements.

Our Mission

Our mission is to simplify international and regional cargo movement by providing customers with responsive, transparent and professionally managed logistics services.

We aim to achieve this through:

Providing the right transportation solution for each shipment.

Building reliable carrier and logistics-partner networks.

Maintaining clear communication throughout the shipment lifecycle.

Supporting customers with documentation and logistics coordination.

Reducing unnecessary delays and logistics costs wherever possible.

Developing long-term customer relationships rather than transactional freight business.

Continuously improving our operational systems, people and service capabilities.

PEOPLE
PARTNERSHIPS
POSSIBILITIES

Our Core Values

Reliability

We understand that our customers depend on cargo arriving where it is required, when it is required. We therefore place reliability at the center of our operations.

Accountability

We take ownership of the shipments entrusted to us and maintain clear responsibility throughout the logistics process.

Transparency

Customers should understand the status, cost and progress of their shipments. We believe in clear quotations, communication and documentation.

Customer Commitment

Every shipment has a business purpose behind it. We work to understand that purpose and provide a solution appropriate to the customer's priorities.

Agility

Freight conditions can change quickly. Our operating approach emphasizes responsiveness and the ability to develop alternatives when routes, schedules or requirements change.

Compliance

We recognize the importance of documentation, customs procedures, trade requirements and regulatory compliance in international logistics.

Continuous Improvement

We continuously seek better routes, stronger partnerships, improved processes and technology that can make logistics more efficient.

CREATING
OPPORTUNITIES

01

One Logistics Partner

Customers benefit from having one team coordinating multiple stages of the logistics chain.

02

Strategic Dubai Location

Dubai provides access to major international air, sea and regional land transportation networks and continues to invest in integrated trade and logistics infrastructure.

03

Multimodal Capability

Air, sea and road solutions allow us to develop transportation strategies around the customer's priorities.

04

Responsive Customer Service

Customers need answers quickly. We aim to provide responsive quotations, shipment updates and operational communication.

05

Competitive Commercial Approach

We work to identify commercially appropriate routes and service combinations rather than simply offering one standard freight option.

06

End-to-End Coordination

From initial quotation through shipment completion, our objective is to maintain accountability throughout the logistics process.

07

B2B & Project Understanding

Our broader group experience gives us a useful understanding of commercial, engineering, technology and project-driven customer requirements.

08

Scalable Solutions

Our service model is designed to support both individual shipments and long-term logistics accounts.

Sea Freight

Global Reach. Flexible Capacity.

For customers moving larger volumes or seeking economical international transportation, VMG International Cargo provides coordinated sea-freight solutions through major ports and international shipping networks.

**RELIABLE
SHIPPING**

**COST
EFFECTIVE**

**GLOBAL
CONNECTIVITY**

OUR SEA FREIGHT SOLUTIONS

Full Container Load — FCL

Suitable for customers requiring dedicated container capacity. Solutions may include commonly required container configurations based on cargo type, dimensions and shipping requirements.

Less than Container Load — LCL

For shipments that do not require a complete container, LCL is an economical method of international transportation.

Import & Export Coordination

We coordinate both inbound and outbound sea freight, including documentation, booking and destination arrangements through the applicable logistics network.

Door-to-Port / Port-to-Door

Flexible combinations can be developed according to the customer's responsibility and agreed Incoterms.

Door-to-Door Sea Freight

Integrated freight management from supplier collection through final delivery.

Specialized Cargo

Subject to cargo specifications, route availability and regulatory requirements, specialized equipment and handling solutions can be arranged for oversized or non-standard cargo.

MOVING
OPPORTUNITIES

Freight Forwarding

One Point of Coordination for Your Shipment

International freight often involves multiple parties—shipper, consignee, carrier, freight agent, terminal, transporter, customs representative and warehouse.

VMG International Cargo acts as the coordinating point between these stakeholders.

Freight forwarding fundamentally involves organizing and monitoring shipments on behalf of shippers, including arranging transportation and related services, preparing documentation and providing shipment information.

COMPLIANT OPERATIONS
TRUSTED PARTNERS

Regulatory Compliance

Adhering to local and international regulations, customs requirements and trade laws.

Accurate Documentation

Ensuring complete, accurate and timely documentation for smooth clearance and delivery.

Approved Service Providers

Working with vetted and reliable carriers, agents and partners.

Cargo-Handling Discipline

Following best practices to ensure safe, secure and proper handling of all cargo.

Customer Confidentiality

Protecting customer information and commercial interests at all times.

Shipment Traceability

Maintaining end-to-end visibility and traceability across the supply chain.

Supplier Performance Monitoring

Regularly evaluating partners to maintain high service standards.

Incident Management

Proactively identifying and resolving issues to minimize disruptions.

Continuous Improvement

Enhancing processes, services and technology to deliver greater value.

Commercial Transparency

Providing clear pricing, terms and communication with no hidden costs.

Where specialist licenses, approvals or handling certifications are required, services should only be provided through appropriately authorized arrangements.
